☐ I acknowledge and agree that Hosted Anyscale is in early preview without certain features, including security controls that are expected for general availability, and accordingly agree that I will not use Hosted Anyscale in production or for critical workloads; or an environment that has access to sensitive or confidential data, including without limitation personal data.

By registering, you agree to the Anyscale Terms of Service, Privacy Policy, and Generative AI Supplement.

This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply.
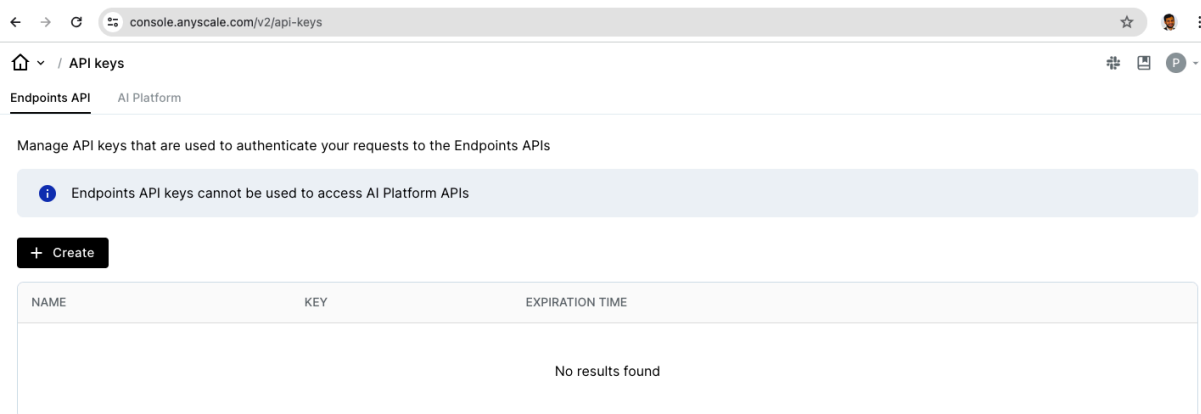

Create an account

Step 7: You will reach the anyscale Playground (free 10$ credit is active)
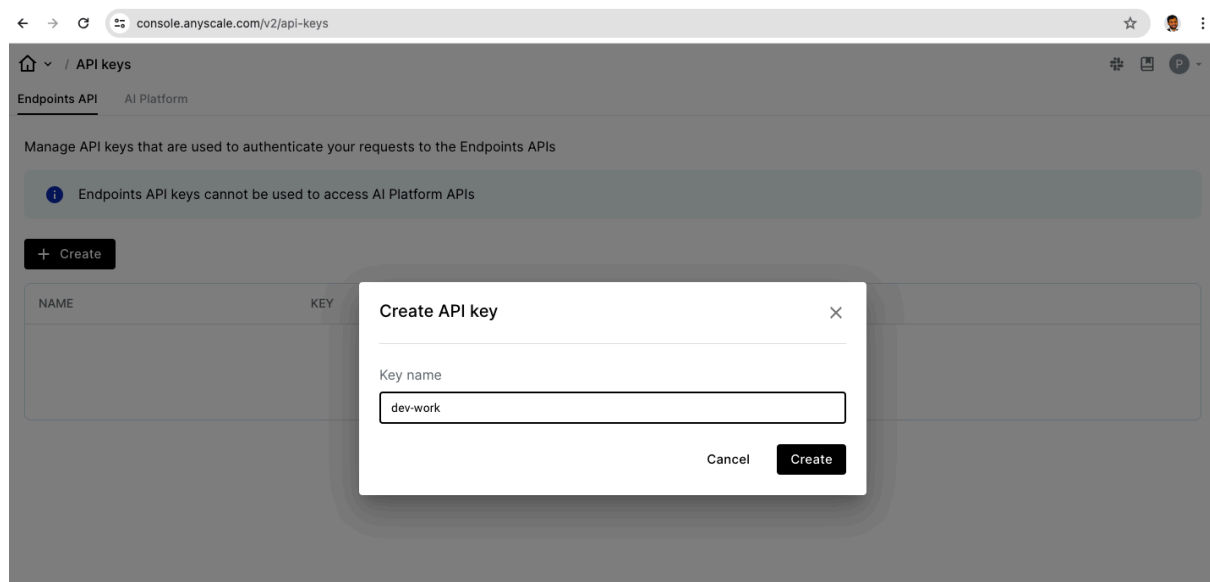

Step 8: Go to API keys by clicking on your account icon on the top right

Step 9: Click Create in the API keys screen

Step 10: Name credential and click Create

Step 11: Copy the token shown in the credential screen

(Note that the token shown here is only for illustration and has been deactivated)

This token will be used to access APIs in the LLM modules.

Checking Credit

As you start using the API, charges incurred will be offset against the free credit obtained when the account was created. Usage and Credit can be checked by going to the organization settings page

Click on Usage

Click on Billing

Scroll down to confirm that the free credits are applied.
